Hi Kate – Here's the mysterious question from the Administrator about the Bay Delta that you heard about from OPA. If you can get a copy of the table, that would be great!

Kathleen – I don't know if you know any more about this than we do. If so, please let us know. I was guessing that the unattached table referred to here might be related to the BDCP, given the question about "how we are likely to weigh in and when."

Looking forward to visiting. Let's find time to talk about the Bay Delta Project. I am having trouble figuring out what is currently in the table and how we are likely to weigh in and

when.
